Mr. Scott Bjella,
Allied Construction Associates, Inc.
3927 Colby Avenue
Everett, WA 98201

Dear Scott:

I wish to take this opportunity to inform you on how much we appreciated working with you and your team during the construction of the Renovations at Rainier View Elementary School for Seattle Public Schools. It was a pleasure working with both Clint Bjella and Walt Joyce on the project. They were professional, courteous, dependable, fair and proactive at all times.

Working on a remodel of a previously closed educational facility is a challenge. We felt that both Clint and Walt made working on this project an enjoyable experience. We all worked collaboratively to determine the best and most economical solution in a timely manner. There were no major setbacks because any issues that arose were resolved quickly before they could become problems. We enjoyed working together and, often times, we were able to laugh and joke together.

Many who have visited the renovated school have informed us that the construction team has done an outstanding job and, maximizing the budget and providing the best possible surroundings for both staff and students. The work showed a lot of care and attention to details.

We look forward to working with Allied again in the near future.

Sincerely,

FREEMAN FONG ARCHITECTURE, PS
