Keith D. Bjella  
Allied Construction Associates, Inc.  
3120 Hewitt Ave  
Everett WA 98201

Dear Keith,

For the City of Snohomish, it was remarkably serendipitous that Allied Construction was the low bidder on our City Hall remodel project. We were remodeling an historic building, our project budgets were constrained, and there were high expectations from staff, the public and the City Council. We are very grateful to you and Allied for your great work.

I am most impressed with Allied's commitment to fine workmanship, your deep construction knowledge and for consistently finding the right solution for the City. Throughout the project, you helped us to both stay on budget and focused on building a high quality and enduring product.

Keith, your communication skills are top notch. This was a large and important project to our City. You consistent keep us in the loop regarding schedule, budget and pending issues. You pro-actively helped to work out field issues and stayed on top of lead times and critical path equipment.

I felt as though you were a complete partner with the City, actively keeping our needs in mind. Thank you for bringing your expertise, craftsmanship, service and thoughtfulness to our City and project. We are very appreciative.

Sincerely,

A handwritten signature in blue ink, appearing to read "Steven Schuller".

Steven L. Schuller, P.E.
